WORK EXPERIENCE

Software Engineer — Aeologic Technologies Pvt. Ltd. (via NICSI) 2024 – Present

Project: Goa State Legal Services Authority Website — Laravel, PostgreSQL

- Built a 15+ page Laravel & PostgreSQL web app with a role-based admin panel, JWT authentication, and access control for 3–4 administrators
- Optimized DB performance using Redis caching, designed PostgreSQL schema, containerized with Docker, and maintained Git/GitHub version control with structured branching

Leave Management System (LMS) — Spring Boot, Next.js, PostgreSQL

- Developed a Leave Management System for the Goa State Legal Services Authority (GSLSA) to automate employee leave requests, approvals, and leave record management.
- Built a secure full-stack application using Spring Boot, Next.js, PostgreSQL, JWT Authentication, and REST APIs with role-based access control.

PROJECTS

Car Rental Website :Next.js, Spring Boot REST Api, PostgreSQL

- Developed a full-stack car rental web application using Next.js, Spring Boot REST Api and PostgreSQL, featuring 20+ vehicles across multiple categories with dynamic listings
- Implemented WhatsApp-based booking integration, containerized using Docker

AI Chatbot with RAG Integration : Python, React

- Built a movie-domain AI chatbot using RAG architecture with LangChain, LangGraph, and ChromaDB for context-aware responses
- Developed Python backend with LLM integration and a React frontend for seamless user interaction

EDUCATION

Master of Computer Applications (MCA)

Chandigarh University | 2024 – 2026

Specialization:

Artificial Intelligence & Machine Learning (AI & ML)

CERTIFICATIONS

Advance Full Stack Java Development

Profound Edutech Pvt. Ltd., Pune | 2023 – 2024
